The Goodwill Tree Of Life

I know of a Goodwill Tree
Down by the pond for all to see.
Conceived by Herman, carved with pride,
Howard helping at his side.
Every day they could they worked
From their task they never shirked.
Through wind and rain and sun and snow,
For near two years to work they'd go.

They'd carve and whittle most every day
The people would drop by and say
How much they liked to watch the show
And bring them Timmies, don't you know,
They carved out things that swam and flew
Yes so creative were those two
That people came from miles around
To watch them play in their playground.

Soon there were no spaces left
All carved by chisels oh so deft
And then this work of art was done
To be enjoyed by everyone.
So there it stands the Goodwill Tree
A symbol of the club you see.
Where fellowship is much admired
And conservation is desired.

A fitting tribute to the past
The monument will surely last.
We thank you and the powers that be
For giving us the Goodwill tree.
